

Docket 04-233

This is to protest the free availability of Pappas Telecasting airtime to Republican candidates. Pappas is abusing its access to public airwaves.

The public interest is not served by not granting equal time to all major candidates for office. Rather those candidates should be permitted to conduct a genuine debate using the public airwaves.

Pappas' free use of the public airwaves and its unbalanced treatment of candidates is at least an abuse of the public trust. This is yet another example of media conglomerates abusing the rights of the public. Thank you.
